this book tells the story of the race between amundsen and scott to reach the south pole first

this book approaches the concept of geo architecture from the perspective of functions of architectures by analyzing the cases of traditional chinese houses and tombs as well as palaces and places of worship houses and tombs the yang dwellings and yin dwellings of human beings in traditional chinese interpretation are the two types of architectures that reveal the wisdom with which different ethnic groups adapted to different geographic environments at different times throughout the long history palaces are connected with various religious architectures throughout the chinese history the connection between imperial power and religion along with its geographic and cultural connotations are implicated in the pattern and layout of religious and imperial architectures this book is the second of a 4 volume book series the series develops the innovative concept of geo architecture by exploring the myriad influences of natural human and historical factors upon architecture these influences are considered in three categories namely interaction between architecture and nature interaction between architecture and its human users and

change in architecture over time each category serves as a lens augmenting these lenses is the time person place concept applied different geographic the analysis ultimately focuses on two aspects geographic influence on architecture and architectural response to geography the over 1000 pictures of case architectures enriches the study with stunning and unique visual angles this unprecedented work will be a unique and valuable contribution to the literature integrating as it does the disciplines of architecture landscape architecture and geography wang fang s voice is original compelling and will be much appreciated by english speaking readers and inside china too i can only imagine stephen m ervin assistant dean graduate school of design harvard university july 2nd 2013 one reason for why there would be interest is because her research would fill some significant gaps in the literature what is novel about dr wang s series is that she further extends this intellectual project of looking at chinese architecture through chinese eyes by taking it one provocative step further annette m kim associate professor department of urban studies and planning m i t july 1st 2013

major advances in the use of geographic information systems have been made in both anthropology and archaeology yet there are few published discussions of these new applications and their use in solving complex problems this book explores these techniques showing how they have been successfully deployed to pursue research previously considered too difficult or impossible to undertake among the projects described here are studies of land degradation in the peruvian amazon settlement patterns in the pacific northwest ethnic distribution within the los angeles garment industry and prehistoric sociopolitical development among the anasazi following an introduction that discusses the theory of geographic information systems in relation to anthropological inquiry the book is divided into sections demonstrating actual applications in cultural anthropology archaeology paleoanthropology and physical anthropology the work will be of much interest within all these communities

teaches students how to read a map by finding their way around a zoo
